### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 19-21, 23-38, 40-41, drawn to a composition, method of making and method of using same.

Group II, claim(s) 22, 39, 42, drawn to a composition, method of making and method of using same.

Group III, claim(s) 43-69, drawn to a composition, method of making and method of using same.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

There is no special technical feature between Groups I and II as fewer components are required for the compositions of Group I versus that of Group II. There is no special technical

feature between Groups I and III and II and III, respectively as there is no requirement permits at least one clonal passage of keratinocytes cultured therein

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application.
